

2.3 Graphs of functions

Checklist

What you should know

By the end of this subtopic you should be able to:

- graph a function using a GDC
- determine the x -intercepts and y -intercept of a function using a GDC
- sketch the graph of a function showing the x -intercepts and y -intercept
- find the sum, difference, product and quotient of two functions $f(x)$ and $g(x)$
- determine the domain of the sum, difference, product and quotient function of two functions $f(x)$ and $g(x)$.
